VOL. L.I.

PIOCHE, NEVADA, FRIDAY, AUGUST 17, 1900,

THE PIOCHE WEEKLY RECORD.

LEGISLATURE APPOINTMENT

Curtailment of Storey County's Repre- El Dorado and Vicinity Presents sentation to be Contested.

The County Commissioners met this afternoon pursuant to adjournment yesterday to complete the preparations of a proclamation for the general election next November.

The proclamation prepared by the commissioners with the Act of the Legislature of 1899 reapportioning the representation from this county, allowing it only one senator and four assemblymen. As soon as the proclamation is issued District Attorney Winnia will apply to the State Supreme court for a writ of mandamus in compelling the commissioners to alter their proclamation to comply with the old appointment made on the basis of the national census of 1890, which allows Storey county two senators and six as-

The-ground upon which the writ of mandamus is applied for is that the Act of the Legislature of 1899 is unconstitutional of and thereforevoid as the constitution of Nevada specifically provides that the apportionment of senators and assemblymen from the various counties of the State must be based upon the population of such counties at the date of the last national census preceding such appointment. As the apportionment made by the legislature of 1898, for the representation from Storey county was based upon an estimate of the population made from the vote of the county cast for Governor, at the State election in 1898, the ground that such apportionment is unconstitutional is incontestible and is safe to forcast that the State Supreme Court Justices wlll so decide.

On the same ground the increase in the representation from other counties in the State, based upon the arbitrary assumption of unconstitutional power by the last legislature The values consist principally of in making the appoinment on an estimate of the population based upon the vote for Governor at the last State election, shall be declared void by the same tribunal.-Virginia Chronicle.

Elko, Lincoln and Washoe counties fell heir to Storey county's loss. this was done in accordance with the constitution. the Independent sayeth not, as it does not wish to set its opinions above that of the assembled wisdom of the State constitution and it is not for us to say that they violated their oaths. The people of Storey county, smarting under the loss of three places for her statemen to fill at \$8 per day and mileage propose to test the matter in the Supreme court and get back the places a Silver party legislature stole from her. If they succeed, Elko county will have to knock along with three members of the assembly until 1903. Washoe and Lincoln will also be compelled to bide their time.

But seriously Elko, Washoe, and Lincoln counties by their increased population and wealth are entitled to a greater representation than they now have in the legislature, but whether they can get it in 1901 is a question for the courts to decide. If the matter is of sufficient importance to these counties to justify the expenditure of county funds, a united effort should be made to sustain the law of 1899. Important legislation will come before the next flegislature and Elko county might need her increased representation.-Independant.

SOUTHERN LINCOLN.

Good Scene of Active Work.

A correspondent of the Salt Lake Tribune writing of Southern Lincoln

In a recent visit to the south- large. east of Lincoln county, Nevada, more particulary Eldorado and vicinity, I find there is quite a deal of prospecting going on and of the different properties I visited among them the Wagner Bros., who have just erectea a one stamp mill. On their first run of ten ton they saved \$450. This was taken from a vein twelve feet wide, from assays from \$5 to \$440 in gold and 1 to 3 ounces silver. They have one shaft down forty feet another twenty-five feet. with drifts started. They have also will pay to mill.

Mr. Power's property, consisting of four claims, there has been taken out with an arasta \$16,000. He has just erected a one-stamp mill and will be running ere you receive this. Mr. Powers is an old timer in the country and is well known in Pioche and Nevada generally.

The McGregor property consists of four claims. He has shipped to the smelter and a rastered ore taken from this property to the value of \$25,000. He is now eyaniding his tailings with good success.

The McDonell property consists of two claims. Mr. McDonell has been very unfortunate as he was able to take out \$25,000 with a hand

Smith and Spanoagle, who have lately come to camp, have made several locations. Among them they have one claim they are working to assays \$209 gold, silver a trace. This is only a small streak, but the boys are making wages.

Mr. Botedegee has got several good locations. From a shipment of two tons he received \$283, silver predominating.

Mr. M. Connelly's property consists of several claims; from one of them he has shipped very regular. gold. He has refused \$40,000 for the group of claims. He thinks he can do better by working them him-

These properties are located in the vicinity of the Southwestern Mining company of ElDorado canyon, which has seventeen claims. Some of these claims were located in the Washoe bagged the senator and early '60s. At the present time they Elko and Lincoln walked off with are excavating for a twenty-stamp an assemblyman each. Whether mill in addition to the present fifteen

stamps. The only stoppage since the first mill was erected has been for repairs and improvements. They have just got through cyaniding the tailings that had accumulated. The eyanide plant was under the management of Mr. Vanderood and a saving of 95 per cent gold and 75 per cent silver was made. The ores are either shipped to Manville, a distance of forty miles, or taken to the river for treatment, where water can be obtained.

They are arastering and treating the tailings in whiskey barrels, which by and by is a very good use to put them to, by the cyanide pro-

There is a railroad surveyed with in four miles of the center of this district, which when built will open one of the best mining countries that I know of at present.

The miners are getting their supplies from Searchlight, which is about eighteen miles, and are packed on burros. The Marie mining district, which lies south of Eldorado canyon and three miles from the Colorado river, is a flourishing camp and is coming to the front. There Virginia City on Thursday September is a Los Angeles party operating quite extensively and is under the management of Mr. Binder, who has just left for Los Angeles to make arrangement for a ten-stamp mill There is also a large property owned by Monaghn & Murphy. The last shipment from this property averaged over \$1000 in gold per ton. There are also several other parties who own good properties here who ormsby are either shipping or arastering their ores

There are several places on the river where power can be easily obtained at reasonable cost for mining purposes, and when cheaper facilities are put into practical use this camh will be the Cripple Creek of

King Humbert's life was insured for \$7,000,000.

A Sound Suggestion.

The following from a correspondent of the Hawthorne Bulletin is full of sound sense. If his suggestions were carried out, it might be a little hard on our statemen, but would be benefical to the people at

Now that we have an election and a new Legislature, I want the voters to demand of the candidates for the Assembly that under no circumstances; no matter how pressing, will they introduce or vote for a bill to alter or amend the game or mining laws, and if any of them shall violate the pledge they should hang the aforesaid legislature to any tree high enough above the ground to keep his entire body off the earth. I con sider this a necessary measure of six other claims which horns and protection. For the last 150 years every representative who wanted to get a reputation and his name in the papers ha- introduced a bill of that kind and it is time that the the fish, sagehen and miners were let alone. They can protect them selves under the ancient law of survival of the fittest.-Dispatch.

> The Elko county jail is to be made escape-proof. In its present condition criminals are in the habit of taking their departure whenever they tire of jail bill of fare.

SUMMONS.

in the listrict Court of the Fourth Judicial District, Lincoln County, State of Nevada.
